* The number of towns the population of which exceeds 5,000, in the Hubli and Navalgund Talukas, given in this return, does not coincide with that given in Form Nos. VIII. and IX., as the town of Hubli consists of several villages as given in the body of the report, two of which contain more than 5,000 inhabitants and the rest less, and the town of Nargund, in Navalgund Taluka, consists of 5 villages, all of which contain less than 5,000 inhabitants; and these villages have been classified separately in this Return according to their population: hence the discrepancy between these returns.
